5. BeltLogistics Seminar:

**“Logistics infrastructure in the  
Fehmarn Belt Region**

**–  
Challenges & Opportunities”**

## Background:

The seminar “Logistics Infrastructure in the Fehmarnbelt Region – Challenges & Opportunities” will present the current plans of the development of logistics infrastructure in the Fehmarn Belt region.

The Hanseatic City of Lübeck is currently developing the port development plan with a time horizon of the year 2030, which also deals with the effects and impacts of the Fehmarn Belt fixed Link for the Region of Lübeck. In this seminar the Lübeck Port Authority and the Lübecker Hafen-Gesellschaft mbH will present the current status of planning of the port development 2030 plan and the upcoming activities in this context.

In advance of the BeltLogistics Fact-Finding-Tour on the 17<sup>th</sup> February 2015, Mr. Thomas Elm Kampmann, Managing Director Port of Køge and Scandinavien Transport Center STC, will present the future developments in the port of Køge and STC.

This seminar aims at sharing knowledge about trends and expectations for future developments in Logistics Infrastructure in the Fehmarn Belt Region. The speakers’ will primarily base their presentations on their own experiences from their working life.

The project “BeltLogistics” was initiated by Wirtschaftsförderung Lübeck GmbH and Roskilde University in connection with the development scheme of the “Fehmarnbelt-Region” 2007-2013 through the EU support program INTERREG IVA. BeltLogistics aims at establishing cross-border cooperation between associations and public authorities dealing with the transport and logistics sector including the knowledge and research institutions as well.

The seminar will be held in English.
